

Biochemistry curriculum for MSc Students

First semester courses	Credits
Clinical Biochemistry	3
Metabolism	2
Enzymology	2
Biochemistry of hormones and tumor markers	2
Information systems	1
Sum	10

Second semester courses	Credits
Research Methods	2
Bioprotection	1
Laboratory methods and skills of working with devices	2
Biochemistry and molecular diagnosis	2
Nutrition	2
Biosafety	1
Sum	10

Third semester courses	Credits
Seminar	1
Advanced biochemistry of tissues	2
Statistics	2
Hospital internship	2
Sum	6
